The California Tort Claims Act requires that the University of California provide defense and indemnification with respect to claims resulting from acts or omissions of University employees in the course and scope of employment, except where the employee acted or failed to act because of actual fraud, corruption, or malice.

**TRAINNEES**

Those activities conducted in the course and scope of a University of California training program, or for which the University has accepted responsibility pursuant to contract or other written authorization.

**NOTE:** Indemnification, in accordance with the California Tort Claims Act, is effective during the full term of University of California employment. Termination of employment and termination of professional liability are concurrent. However, the Professional Liability Insurance is on an occurrence basis and therefore tail coverage is not required.

**PART-TIME FACULTY (salaried or non-salaried)**

Only those patient care activities with are conducted in University-owned or affiliated health care facilities and:

1. either include teaching of University medical students, inters or residents, or
2. are conducted solely because of participation in University-sponsored programs

**NON-FACULTY STAFF (salaried or non-salaried)**

All activities conducted within the course and scope of employment.

* **UCOP will provide defense and indemnification for University students who are acting at the direction of the University. Similarly, we will provide a defense and indemnification for faculty who are supervising UC students in the course of the UC faculty appointment.**
