Safety Precaution: Keep thick-soled shoes at desk in the event of broken glass. (Many shoes have thin soles and are unsafe for walking over shattered glass.)
BUILDING EVACUATION PROCEDURES

- STAY CALM, and quickly move to the outside of the building using the nearest door marked with an EXIT sign.
- Close and secure all doors as you leave. Take your keys with you.
- DO NOT USE ELEVATORS. Proceed to the nearest safe stairway.
- Be certain all persons in the area are evacuated immediately to the designated assembly area (see map)
- Help those who need special assistance – disabled, small children, etc.
- Wait for instructions from emergency response personnel.

FIRE PROCEDURES

Small Fire

- Pull fire alarm and call Campus Police at 9-1-1.
- Locate fire extinguisher and use it IF TRAINED to do so.
- Make sure you have an unobstructed exit available to you.
- Pull the finger pin located in the extinguisher’s handle.
- Aim nozzle at the BASE of the fire.
- Squeeze handles and sweep from side to side until fire is out.
- Notify UCSD Fire Marshal at (858) 534-1062.
Large Fire

- Pull fire alarm and call Campus Police at 9-1-1.
- IMMEDIATELY evacuate the building, using stairway.
- Close door behind you to confine the fire.
- Assist those with disabilities, children, etc.
- Go to designated assembly area (see map)
- Remain outside, upwind from any smoke until fire department personnel have arrived, contained the fire and turned off alarm.
- Re-enter building AFTER emergency response personnel have given clearance.

Earthquake Procedures

- Quickly take cover under a desk or table, arch or stairwell. If none available, move against an interior wall and cover your head with your arms.
- Stay away from large windows and shelving systems.
- After shaking has subsided, survey immediate area for trapped or injured persons and ruptured utilities (water, gas, etc.).
- Evacuate the building using the stairway.
- Go to designated assembly area (see map)
- Personnel will not be allowed to return to their work area until the building has been structurally inspected and declared safe.
Bomb Threat Procedures

- Get as much information from the caller as possible.
- Record the time of the call
- Ask the following questions:
  - When will the bomb go off?
  - Where is it?
  - What does it look like?
  - Why was it placed in the building?
  - Who is calling?

- Take note of the following:
  - Caller’s gender
  - Approximate age
  - Is the voice familiar?
  - Does the person have an accent or unique speech attribute?
  - Are there any unique background noises?

If the bomb threat was hand delivered:
- Try to recall a description of the messenger or other suspicious persons in the area.
